EXAMINER'S ACTION

Art Unit: 2603

Part III DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-7, drawn to a particular radio transmitting and receiving apparatus, classified in Class 455, subclass 66.

Group II. Claims 8-17, drawn to wireless local area network, classified in Class 370, subclass 95.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations. (M.P.E.P. § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because transceivers a structure different from that defined in claims 1-7 could be employed in the local area network of claims 8-17. The subcombination has separate utility such as the using the defined transceiver apparatus for communication between two devices that are not necessarily part of a local area network.

Art Unit: 2603

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hassan Kizou whose telephone number is (703) 305-4744.
